

YOU KNOW THE 5%

The Legislature has approved the Governor's 5% rate cut to Medicaid-funded services.

We MUST ask the Governor NOW to reverse this cut so we can keep your services funded!

If the cut is implemented, it could lead to reductions in caregiver wages or changes in the areas of the state where agencies like Consumer Direct Care Network Alaska provide care.

This Means:

- Clients might lose experienced caregivers, have a harder time finding new caregivers, or lose access to their services
- Caregivers might have to work longer hours or find different jobs
- Rural areas of the state may suffer even more from limited or no access to care

Tell Him:

- You oppose the 5% cut to Medicaid rates
- You want to protect Home and Community Based Services (HCBS), Personal Care Services (PCS), and Community First Choice (CFC) services
- To please preserve our funding and protect the most vulnerable Alaskans
